■The issuance of our Corporate Report

Sinanen Holdings has been working on the 2nd Medium-Term Management Plan for the three-year period since FY 2020. This medium-term management plan is positioned as a business foundation development period for our 3rd Medium-Term Management Plan starting in FY 2023 and with a view to the company’s 100th founding anniversary in FY 2027. Under the plan, we are specifically working on (1) improving capital efficiency, (2) executing investments to realize sustainable growth, and (3) reforming employees’ thinking, habits, and behavior patterns. Moreover, we also make strategic investments in new businesses such as renewable energy and environment-friendly electric power supply.

Our Corporate Report 2021, which references the “Guidance for Collaborative Value Creation” of the Ministry of Economy, Trade and Industry and the “International Integrated Reporting Framework” of the International Integrated Reporting Council (IIRC), communicates the Group’s growth strategies targeting the realization of a carbon-free society and the achievement of SDGs (Sustainable Development Goals), as well as social contributions through our business operations.

In addition, from the perspective of ESG, the report explains in detail the Group’s contributions to the environment and society, the promotion of human resources development and diversity, DX (digital transformation) initiatives, strengthening of corporate governance, risk management, and more.

By using the Corporate Report as one of the communication tools for the constructive dialogue with our various stakeholder constituencies, Sinanen Holdings aims to promote sustainable growth and enhance the enterprise value of the Group.
